Write your complete name. *

Your answer
Galileo was born on February 15, 1564 in Tuscany, Pisa, Italy. He went to college in a city called Pisa. He was very smart. He was interested in many subjects. He liked math and science. He did not always study the sky. At first he studied math. Then, he taught math. He was a teacher at two different colleges.

Galileo was a good observer. He watched how the world worked. He began making things. He made his own telescope. People used it to look for ships in the water. Galileo used it to look at the sky. He started to study the moon and planets. He made discoveries. He saw the moon craters. He saw Jupiter has moons going around it. Nobody knew this before Galileo, that is why they are called Galilean moons.

Galileo said the sun was the center of the universe. He said Earth went around the sun. Everyone thought that the sun went around the Earth. Galileo was a great scientist. He is the father of the astronomy. That is the study of space. He taught us important things about how the world works. He died on 1642.
When was Galileo born? *  

- February 15th, 1564.  
- July 24th, 1582

Where was Galileo born? *  

- Tuscany, Pisa, Italy  
- Rome, Italy

What were the subjects that he liked? *  

- Math and science  
- English and gymnastics

In how many colleges was he a teacher? *  

- One  
- Two
|   |   
|---|---
| **One** | **Two** |

**What did Galileo created?**  
- Telescope  
- Telephone

**What did he study with the telescope?**  
- Water and ships  
- Moon and planets

**How are Jupiters' moons called?**  
- Galilean moons
